FullStack Developer

Ariana, Tunisia | +216 23 908 331 | bouzidi.medali20@gmail.com Portfolio: linktr.ee/BouzidiMedAli | LinkedIn: /in/bouzidi-med-ali

Backend-oriented full stack developer experienced in scalable backend systems, Spring Boot microservices, and containerized DevOps workflows. Currently preparing for RHCSA to strengthen Linux and automation skills.

Spring Boot, Spring Security, Hibernate, Node.js
Angular, React, Tailwind, Flutter
MariaDB, MySQL, MongoDB, Firebase
Docker, GitHub Actions, Linux, CI/CD, Cron Jobs
Postman, Jira, Clean Code, SOLID Principles

• Built scraping microservices collecting   from 4 supermarket sources.
• Improved REST API performance by   via optimized payload handling.
• Designed hybrid data model (MariaDB + MongoDB).
• Integrated backend with Flutter app; automated with Docker & GitHub Actions.

• Developed content management features for medical professionals.
• Implemented secure JWT authentication and role-based access.
• Built Angular UI consuming REST APIs with MySQL backend.

• 　　　　 – Hotel management system (Spring Boot, Angular)
• 　　　　　 – Mobile booking (Flutter, Firebase)
• 　　　　　　 – E-commerce platform (React, Node.js)
• 　　　 – URL shortener (Flask, React)
• 　　　　　　　 – Tool tested by 30+ users (Flutter)
• 　　　 – Next.js + Tailwind + CI/CD

Software Engineering Student — TEK-UP

Bachelor's Degree in Information Systems Development — ISET Kélibia

• Preparing: Red Hat Certified System Administrator (RHCSA)
• EF SET English Certificate — C1 (68/100)

Arabic (Native) • English (Advanced) • French (Conversational)
